PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience in building **scalable web applications** and **interactive user interfaces** using **React.js**, **Node.js**, **Express.js**, and **MongoDB**. Skilled in **REST API integration**, **real-time communication**, and **responsive UI development**. Experienced in **performance optimization**, following **clean architecture**, and delivering solutions focused on **user-centric design**.

PROJECTS

ElderlyCare – Medical Data & Emergency Assistance Web App

[Live](#) [GitHub](#)

- Built a **MERN-based healthcare platform** for **secure storage** and **real-time access** to senior citizens' medical profiles.
- Designed a **QR-based identification system** to instantly retrieve **medical history** and **emergency details**.
- Developed **secure REST APIs** with **JWT authentication** for reliable client-server communication.
- Integrated **Twilio** and **SendGrid APIs** to send **real-time alerts with geolocation** to emergency contacts.
- Created **responsive React UI** with reusable components, ensuring smooth cross-device experience.

AI Gmail Assistant – Chrome Extension for Smart Email Replies & Summarization

[GitHub](#)

- Built a **Chrome extension** that generates **context-aware email replies** and summaries directly inside Gmail.
- Implemented **AI-powered response generation** with multiple tones (professional, friendly, short) to improve user productivity.
- Developed **real-time email summarization** to extract key information from long email threads.
- Integrated **multi-language support** enabling replies in English, Hindi, and Hinglish.
- Designed a **seamless UI injection into Gmail** with editable suggestions before sending responses.

GitHub Explorer – GitHub User Search & Repository Analysis App

[Live](#) [GitHub](#)

- Built a **high-performance GitHub user search application** with optimized API handling.
- Implemented **debounced search (400ms)** to reduce redundant API calls and improve responsiveness.
- Integrated **GitHub REST API** to display **user profiles, repositories, stars, forks, and metadata**.
- Developed **infinite scrolling** for efficient data loading and seamless user experience.
- Created reusable **custom hooks** (*useDebounce*, *useInfiniteScroll*) and added features like **bookmarking, sorting, and filtering**.
- Designed a **responsive UI with dark/light mode**, ensuring accessibility across devices.

SKILLS

Languages: JavaScript, TypeScript, SQL

Databases & Tools: MongoDB, MySQL, VS Code, Git, GitHub, Postman, MS Office

Frameworks & Libraries: React.js, Node.js, Express.js, Redux

Technologies: HTML, CSS, Tailwind, Bootstrap

Deployment: Vercel, Render

Soft Skills: Problem Solving, Adaptability, Communication, Team Collaboration

EDUCATION

Bachelor of Technology in Computer Science

2021 – 2025

Dr. A.P.J. Abdul Kalam Technical University, Uttar Pradesh

CERTIFICATIONS

Full Stack Web Development (MERN) — AccioJob

2025
